

## The IT Infrastructure Practice

Specialising in recruiting for IT Infrastructure roles, the team work as dedicated recruitment partners to the following sectors:

- IT Channel, IT Vendor and IT Service Provider
- Banking and Finance
- Corporate and Commercial

Our team is firmly established as one of the most respected teams across the UK, US & European markets with an unmatched track record backed up by numerous client and candidate testimonials.

Clients include leading Vendors, Solution Providers and End-users from global players to boutique specialists.

We work with our clients to provide full time, permanent hires along with both interim and contract solutions.

## Services we provide

- Contingency recruitment
- Retained assignment
- Research on competitors, market trends and new business areas
- Consultancy services
- Salary benchmarking

## Why work with us?

### Market and Technology knowledge

With 40 years experience across the team specialising in this space we fully understand both the industry and the technologies we recruit. We structure the team to mirror the technology to provide true specialist consultants. As a result we can quickly understand requirements as well as enabling us to find untapped talent in synergistic / competitive businesses.

### Established Networks

Our network of candidates and clients is unparalleled in the market and we have built very strong relationships across the industry. We meet our candidate and client base regularly and can quickly leverage this network to secure the best of the best for your requirements.

### Our Approach

Our mantra is "Meet Advise Deliver and Make IT Happen". We work as a trusted consultancy and recruitment partner to clients who expect results and utilise our advisory style and experience to secure optimum results. We work tirelessly to ensure results are achieved within specified timeframes.

### History of success

We have a proven track record globally of delivering results in this arena built up over the last decade and have multiple case studies to attest to this with references to our work available from the very best IT Professionals.
